100 Claude AI Power Prompts

Unlock Advanced Capabilities & Maximize Your Productivity

This curated collection of 100 power prompts is designed to help you harness the full potential of Claude AI across various domains. These prompts go beyond basic instructions, guiding Claude to deliver nuanced, high-quality, and actionable outputs.

Table of Contents

1. **Marketing & Sales**
2. **Content Creation & Copywriting**
3. **Business Strategy & Analysis**
4. **Product Development & Innovation**
5. **Technical & Development**
6. **Research & Learning**
7. **Personal Productivity & Organization**
8. **Creative Writing & Storytelling**
9. **Human Resources & Management**
10. **Legal & Compliance**

---

1. Marketing & Sales (1-10)

1. **Market Research:** “Act as a market research analyst. Analyze the provided customer survey data and identify the top three unmet needs for our new SaaS

product targeting small businesses. Provide actionable insights and suggest potential feature improvements based on these needs."

2. **SEO Content Strategy:** "As an SEO content strategist, generate 10 long-tail keyword ideas for a blog post about 'sustainable urban gardening.' For each keyword, suggest a compelling title and a brief outline that targets search intent and includes relevant LSI keywords."
3. **Social Media Campaign:** "Develop a 5-day social media campaign plan for a new organic skincare line launch on Instagram and TikTok. Include post ideas, caption angles, relevant hashtags, and a call-to-action for each day."
4. **Email Marketing Sequence:** "Write a 3-part email welcome sequence for new subscribers to an e-commerce store selling artisanal coffee. Focus on building brand loyalty, highlighting unique selling propositions, and driving first-time purchases. Include subject lines and a clear CTA for each email."
5. **Sales Pitch Script:** "Create a concise sales pitch script for a B2B software solution that automates invoice processing. Target small to medium-sized enterprises. Highlight pain points, benefits, and include a strong closing statement to schedule a demo."
6. **Ad Copy Generation:** "Generate 5 variations of Facebook ad copy for a limited-time offer on a fitness app subscription. Focus on urgency, benefits (e.g., 'lose weight,' 'get fit'), and include emojis. Target audience: busy professionals aged 25-45."
7. **Competitor Analysis:** "Perform a SWOT analysis on our main competitor, [Competitor Name], based on their website, social media presence, and recent news. Identify their key strengths, weaknesses, opportunities, and threats relative to our product, [Your Product Name]."
8. **Customer Persona Development:** "Develop a detailed customer persona for a luxury travel agency. Include demographic information, psychographics, motivations, pain points, preferred communication channels, and a compelling narrative."
9. **Content Repurposing:** "Take the provided webinar transcript about 'blockchain in finance' and suggest 3 ways to repurpose it into different content formats (e.g., blog post, infographic, podcast script). Provide a brief outline for each new format."
10. **Lead Magnet Idea:** "Brainstorm 5 creative lead magnet ideas for a financial advisory firm targeting high-net-worth individuals. Each idea should offer

significant value and position the firm as an authority. Provide a brief description for each."

---

2. Content Creation & Copywriting (11-20)

11. **Blog Post Draft:** "Write a 1000-word blog post draft on the topic of 'The Future of Remote Work.' Include an introduction, 3-4 main points with supporting arguments, and a conclusion. Maintain a professional yet engaging tone."
12. **Website Landing Page Copy:** "Draft compelling headline and body copy for a landing page promoting a new online course on 'Digital Marketing for Beginners.' Focus on benefits, urgency, and a clear call-to-action."
13. **Product Description:** "Write a persuasive product description for an eco-friendly reusable water bottle. Highlight its features (material, capacity, design) and benefits (sustainability, health, convenience)."
14. **Press Release:** "Compose a press release announcing the launch of [Company Name]'s new AI-powered customer service platform. Include key features, benefits for customers, a quote from the CEO, and contact information."
15. **Video Script Outline:** "Create a detailed script outline for a 2-minute explainer video about how our project management software works. Include visual cues, voiceover text, and key messages for each segment."
16. **Podcast Episode Ideas:** "Generate 5 engaging podcast episode ideas for a show focused on 'personal finance for millennials.' For each idea, suggest a catchy title and 3-4 discussion points."
17. **Book Chapter Outline:** "Develop a detailed outline for a book chapter titled 'Mastering Time Management in the Digital Age.' Include an introduction, 4-5 sub-sections with key concepts, and a conclusion."
18. **Speech Writing:** "Write a 5-minute motivational speech for a team meeting, focusing on overcoming challenges and fostering collaboration during a period of rapid growth. Include an opening, main points, and a strong closing."
19. **Newsletter Content:** "Draft content for a weekly newsletter for a tech startup. Include a company update, a featured blog post, a relevant industry news item, and a call-to-action to try a new feature."

10. **Brand Story:** “Craft a compelling brand story for a startup that sells handmade ethical jewelry. Focus on the founder’s inspiration, the brand’s values, and the impact it aims to make.”

---

3. Business Strategy & Analysis (21-30)

1. **Business Plan Outline:** “Generate a comprehensive outline for a business plan for a new co-working space in a mid-sized city. Include sections like Executive Summary, Market Analysis, Services, Marketing Strategy, Management Team, and Financial Projections.”
2. **SWOT Analysis:** “Conduct a detailed SWOT analysis for a small independent bookstore facing competition from online retailers. Suggest strategies to leverage strengths and opportunities, and mitigate weaknesses and threats.”
3. **Go-to-Market Strategy:** “Outline a go-to-market strategy for a new mobile gaming app. Consider target audience, pricing model, distribution channels, and promotional activities.”
4. **Risk Assessment:** “Identify and assess potential risks for a company expanding into a new international market. Categorize risks (e.g., political, economic, operational) and suggest mitigation strategies for each.”
5. **Decision-Making Framework:** “Explain the ‘Eisenhower Matrix’ decision-making framework and provide a step-by-step guide on how to apply it to prioritize tasks in a busy work environment.”
6. **Scenario Planning:** “Develop three plausible future scenarios for the automotive industry over the next 10 years, considering factors like EV adoption, autonomous driving, and supply chain disruptions. For each scenario, outline key characteristics and potential impacts on traditional manufacturers.”
7. **Competitive Advantage:** “Analyze the concept of ‘sustainable competitive advantage’ and provide examples of companies that have successfully achieved it. Explain the key factors contributing to their long-term success.”
8. **Market Entry Strategy:** “Advise on the best market entry strategy for a European luxury fashion brand looking to enter the Chinese market. Consider cultural nuances, distribution, and branding.”
9. **Pricing Strategy:** “Propose a pricing strategy for a new subscription box service delivering gourmet snacks. Consider cost-plus, value-based, and competitive

pricing models. Justify your recommendation."

10. **Growth Hacking Ideas:** "Brainstorm 10 creative growth hacking ideas for a nascent online education platform. Focus on low-cost, high-impact strategies to acquire and retain users."

---

4. Product Development & Innovation (31-40)

1. **Feature Prioritization:** "Given a list of 10 potential features for a mobile banking app, use the MoSCoW method to prioritize them. Explain your reasoning for each category (Must-have, Should-have, Could-have, Won't-have)."
2. **User Story Generation:** "As a Product Owner, write 5 user stories for a new 'dark mode' feature in a web application. Follow the 'As a [user], I want [goal], so that [benefit]' format."
3. **MVP Definition:** "Define the Minimum Viable Product (MVP) for a new AI-powered personal assistant app. What core functionalities are absolutely essential for the first release?"
4. **Innovation Brainstorm:** "Facilitate a brainstorming session for innovative uses of augmented reality (AR) in the retail sector. Generate at least 10 distinct ideas, ranging from practical to futuristic."
5. **Product Roadmap Outline:** "Create a high-level product roadmap outline for the next 12 months for a B2B SaaS product. Include key themes, major features, and potential release quarters."
6. **Design Thinking Process:** "Explain the 5 stages of the Design Thinking process (Empathize, Define, Ideate, Prototype, Test) and provide a brief example of how each stage would apply to developing a new smart home device."
7. **A/B Test Ideas:** "Generate 5 A/B test ideas for the checkout page of an e-commerce website to improve conversion rates. For each idea, specify the hypothesis and the metric to be measured."
8. **User Feedback Analysis:** "Analyze the provided qualitative user feedback (e.g., survey comments, interview transcripts) for our new mobile app. Identify recurring themes, common pain points, and prioritize areas for improvement."
9. **Competitive Feature Analysis:** "Compare the features of our [Product Name] against [Competitor A] and [Competitor B]. Identify gaps, unique selling points,

and areas where we can differentiate."

10. **Product Launch Plan:** "Outline a detailed product launch plan for a new consumer electronics gadget. Include pre-launch, launch day, and post-launch activities across marketing, PR, and sales."

---

5. Technical & Development (41-50)

1. **Code Review Feedback:** "Review the provided Python code snippet for a data processing script. Identify potential bugs, suggest optimizations for performance, and recommend best practices for readability and maintainability."
2. **API Documentation:** "Draft clear and concise API documentation for a RESTful endpoint that retrieves user profiles. Include endpoint URL, HTTP method, request parameters, example request/response, and error codes."
3. **Database Schema Design:** "Design a relational database schema for a simple e-commerce application. Include tables for Users, Products, Orders, and OrderItems. Specify primary keys, foreign keys, and relevant fields for each table."
4. **Troubleshooting Guide:** "Create a step-by-step troubleshooting guide for common issues encountered when setting up a local development environment for a React application (e.g., 'npm install' errors, port conflicts)."
5. **Algorithm Explanation:** "Explain the 'Merge Sort' algorithm in simple terms. Provide a high-level overview of how it works, its time complexity, and when it is best used."
6. **Security Best Practices:** "Summarize key security best practices for developing web applications. Cover topics like input validation, authentication, authorization, and secure coding principles."
7. **Cloud Architecture Recommendation:** "Recommend a suitable cloud architecture (e.g., AWS, Azure, GCP) for deploying a scalable web application with a microservices backend and a React frontend. Justify your choices for compute, database, and networking services."
8. **Git Workflow Explanation:** "Explain a common Git branching strategy (e.g., Git Flow or GitHub Flow) for a team of 5 developers working on a single project. Detail the purpose of each branch and the merge process."

9. **Containerization Strategy:** “Advise on a containerization strategy using Docker for a legacy monolithic application. Outline the steps involved in containerizing the application and the benefits it would bring.”
10. **Testing Strategy:** “Propose a comprehensive testing strategy for a new mobile application. Include different types of testing (unit, integration, UI, performance) and suggest tools or frameworks for each.”

---

6. Research & Learning (51-60)

1. **Literature Review Outline:** “Create an outline for a literature review on the impact of artificial intelligence on the healthcare industry. Include sections for introduction, key themes, current research gaps, and conclusion.”
2. **Concept Explanation:** “Explain the concept of ‘Quantum Entanglement’ to a layperson with no scientific background. Use analogies and simple language to make it understandable.”
3. **Study Plan:** “Develop a 3-month study plan for someone preparing for the PMP certification exam. Include weekly topics, recommended resources, and practice test schedules.”
4. **Debate Argumentation:** “Construct arguments for and against the widespread adoption of universal basic income (UBI). Provide economic, social, and ethical considerations for both sides.”
5. **Historical Event Analysis:** “Analyze the causes and consequences of the Industrial Revolution. Discuss its long-term impact on society, economy, and technology.”
6. **Scientific Hypothesis Generation:** “Formulate a testable hypothesis regarding the effect of screen time on adolescent sleep patterns. Outline a potential experimental design to test this hypothesis.”
7. **Critical Thinking Exercise:** “Present a complex ethical dilemma (e.g., self-driving car accident scenarios) and ask Claude to analyze it from multiple ethical frameworks (e.g., utilitarianism, deontology).”
8. **Summarize Research Paper:** “Summarize the key findings, methodology, and implications of the provided research paper on ‘Climate Change Mitigation Strategies.’ Focus on brevity and clarity.”

9. **Language Learning Plan:** “Create a personalized 6-month language learning plan for a beginner wanting to learn Spanish, focusing on daily practice, resources, and measurable milestones.”
10. **Fact-Checking Assistant:** “Act as a fact-checker. Evaluate the accuracy of the following statement: ‘Eating organic food guarantees a longer lifespan.’ Provide evidence-based reasoning.”

---

7. Personal Productivity & Organization (61-70)

1. **Daily Schedule Optimization:** “Optimize my daily schedule for maximum productivity, given my work hours (9 AM - 5 PM), preference for deep work in the mornings, and need for 30 minutes of exercise. Include breaks and focus blocks.”
2. **Goal Setting (SMART):** “Help me set a SMART goal for improving my public speaking skills. Guide me through making it Specific, Measurable, Achievable, Relevant, and Time-bound.”
3. **Task Breakdown:** “Break down the complex task ‘Plan and execute a successful charity fundraising event’ into smaller, manageable sub-tasks. Provide estimated timelines for each.”
4. **Meeting Agenda Creator:** “Generate a detailed agenda for a 60-minute weekly team sync meeting. Include sections for updates, discussion topics, action items, and next steps.”
5. **Digital File Organization:** “Suggest a logical and efficient digital file organization system for a freelance graphic designer, covering project files, client assets, invoices, and portfolio pieces.”
6. **Habit Tracker Ideas:** “Brainstorm 5 creative and effective habit-tracking methods for someone trying to build a consistent meditation practice. Consider digital and analog options.”
7. **Decision Log Template:** “Create a simple decision log template that includes fields for decision, date, options considered, rationale, outcome, and lessons learned.”
8. **Time Blocking Strategy:** “Explain the concept of time blocking and provide a practical example of how to implement it for a project manager juggling multiple projects.”

9. **Email Management Strategy:** “Propose an effective email management strategy to reduce inbox clutter and improve response times for a busy professional receiving 100+ emails daily.”
10. **Mind Mapping Outline:** “Generate a mind map outline for planning a personal development retreat. Include main branches for ‘Theme,’ ‘Location,’ ‘Activities,’ ‘Attendees,’ and ‘Budget.’”

---

8. Creative Writing & Storytelling (71-80)

1. **Story Plot Generator:** “Generate a unique plot for a fantasy novel. Include a protagonist with a hidden power, a clear antagonist, a magical setting, and a central conflict that drives the narrative.”
2. **Character Development:** “Develop a complex character profile for a detective in a noir mystery. Include their backstory, personality traits, flaws, motivations, and a distinctive physical description.”
3. **Poetry Generation:** “Write a short poem (4 stanzas) about the beauty of autumn, focusing on sensory details like colors, smells, and sounds.”
4. **Dialogue Writing:** “Write a dialogue between two estranged siblings meeting for the first time in 10 years at a family wedding. Focus on unspoken tensions and subtle reconciliation.”
5. **World-Building Prompt:** “Describe a futuristic city where technology has merged seamlessly with nature. Focus on its architecture, daily life of its inhabitants, and any unique social structures.”
6. **Short Story Idea:** “Generate 3 intriguing short story ideas based on the premise of ‘a forgotten object gaining sentience.’”
7. **Screenplay Scene:** “Write a scene for a romantic comedy where two strangers accidentally swap phones at a coffee shop and discover surprising things about each other.”
8. **Mythology Creation:** “Invent a new mythological creature. Describe its appearance, powers, origin story, and its role in the ecosystem or human folklore.”
9. **Journal Prompt:** “Provide 5 reflective journal prompts designed to encourage self-discovery and personal growth.”

10. **Song Lyric Generation:** “Write lyrics for the first verse and chorus of a folk song about longing for a simpler time, using imagery of nature and childhood memories.”

---

9. Human Resources & Management (81-90)

1. **Job Description Creation:** “Create a detailed job description for a ‘Senior Software Engineer’ position. Include responsibilities, required skills, qualifications, and preferred experience.”
2. **Interview Question Generator:** “Generate 10 behavioral interview questions for a ‘Marketing Manager’ role, focusing on leadership, problem-solving, and strategic thinking.”
3. **Performance Review Feedback:** “Draft constructive feedback for an employee who consistently meets targets but struggles with teamwork and communication. Suggest actionable steps for improvement.”
4. **Employee Onboarding Plan:** “Outline a comprehensive 30-60-90 day onboarding plan for a new remote employee in a customer support role. Include key activities, learning objectives, and check-ins.”
5. **Conflict Resolution Strategy:** “Explain the steps involved in mediating a conflict between two team members. Provide advice on active listening, identifying common ground, and finding a resolution.”
6. **Training Module Outline:** “Develop an outline for a training module on ‘Cybersecurity Best Practices for Employees.’ Include learning objectives, key topics, and assessment methods.”
7. **Diversity & Inclusion Initiative:** “Propose 3 actionable diversity and inclusion initiatives for a tech company looking to foster a more inclusive workplace culture. Focus on measurable outcomes.”
8. **Leadership Style Analysis:** “Analyze the ‘Transformational Leadership’ style. Describe its characteristics, benefits, potential drawbacks, and provide an example of a leader who embodies it.”
9. **Employee Engagement Survey Questions:** “Generate 10 questions for an employee engagement survey, covering areas like job satisfaction, work-life balance, management support, and career development.”

10. **Remote Work Policy Draft:** “Draft key clauses for a remote work policy for a company transitioning to a hybrid model. Cover aspects like eligibility, equipment, communication expectations, and performance management.”

---

10. Legal & Compliance (91-100)

1. **Contract Clause Drafting:** “Draft a non-disclosure agreement (NDA) clause for a software development project. Ensure it covers confidentiality, scope, and duration.”
2. **Privacy Policy Summary:** “Summarize the key components and requirements of a GDPR-compliant privacy policy for a website that collects user data through forms.”
3. **Terms of Service Outline:** “Create an outline for the Terms of Service document for a new mobile application. Include sections like User Responsibilities, Intellectual Property, Disclaimers, and Termination.”
4. **Compliance Checklist:** “Generate a compliance checklist for a small business operating in the e-commerce sector, covering consumer protection laws, data privacy, and advertising standards.”
5. **Legal Research Query:** “Formulate a legal research query to find case law related to ‘intellectual property infringement in AI-generated content.’”
6. **Risk Mitigation Advice:** “Provide advice on mitigating legal risks associated with using open-source software in commercial products. Focus on licensing and attribution.”
7. **Ethical AI Guidelines:** “Draft a set of ethical guidelines for the development and deployment of AI systems within a company. Cover fairness, transparency, accountability, and privacy.”
8. **Data Breach Response Plan:** “Outline the essential steps for a data breach response plan for a company that handles sensitive customer information. Include notification, investigation, and remediation.”
9. **Copyright vs. Trademark:** “Explain the key differences between copyright and trademark law, providing examples of what each protects and how they are enforced.”

10. **Regulatory Update Summary:** “Summarize recent regulatory changes (within the last 6 months) impacting data privacy laws in the European Union. Highlight key implications for businesses operating there.”
